Anatomical examination (whole body)

When a person bequeaths their body for anatomical examination and their remains are to be cremated after the examination, the university's licensed teacher of anatomy will complete Form M¹ when releasing a whole body for disposal. A person authorised by the university is required to complete Form A6 to apply for the cremation.

Body Parts (anatomical examination or post mortem examination)

Some body parts may be retained after the body itself has been released for cremation. The licensed teacher of anatomy, doctor or pathologist will complete Form N² releasing the body parts for disposal and a person authorised by the university or hospital must complete Form A6 to apply for the cremation.

Hospital arranged post mortem examination

When the form authorising a hospital post mortem examination is completed by the next of kin they will complete the section for disposal of any retained organs/body parts. Form A6 should be used by the hospital to arrange for cremation of the organs/body parts.

Form M or Form N must be submitted along with every Form A6 to the cremation authority to cremate the body/organs/body parts.
